RE: Resource Conservation and
Recovery Act Part A Withdrawal
and Change of Status
EPA I.D. No. C00075770560

Dear Mr. Patrick:

We hereby acknowledge your withdrawal of your Part A permit application for the treatment of hazardous waste submitted pursuant to the Resource Conservation and Recovery Act (RCRA). We also acknowledge your change in status to that of a non-generator of hazardous waste (40 CFR 261.3). This request was contained in your letter to us dated November 9, 1982.

As stated in your letter and discussed by phone, you did not have a treatment facility in existence or operation as of November 10, 1980 (and still do not), and therefore did not qualify for interim status. This means that your Part A application could not be "reinstated," but instead you would have to submit both Parts A and B of an application for a new facility. If you determine that you do need a treatment permit in the future, we will be happy to work with you on it. If you have any questions regarding this matter, please contact Mr. Jon Minkoff of my staff at 827-6239.

Sincerely yours,

Lawrence A. Wapansky, Acting Chief
Hazardous Waste Permits Section
